

Norwich University of the Arts

Course costs: BA (Hons) Games Art and Design

We know students need to plan and manage their finances to allow them to get the most out of their study without being faced with unexpected costs. We have worked closely with the Students' Union to put together this basic guide on the scale and type of costs you might incur on BA (Hons) Games Art & Design.

NUA provides the extensive range of professional standard workshops which make it possible for you to complete your course without making a significant personal investment in equipment, although some students do choose to buy equipment for their own use (such as a laptop). The NUA Student Shop also sells a range of art, design and media materials at heavily discounted rates.

In your graduating year, your final professional portfolio or show reel is an important element for your final assessment and also your future employability. It is a key outcome that will help you make the successful transition from NUA into your chosen career.

Please note that Study Visits are optional enrichment activities and are not included in the tuition fee. You will not be disadvantaged if you are unable to take part.

Typical study costs and optional items:

Course: BA (Hons) Games Art and Design				
Typical expenditure items	Year 0	Year 1	Year 2	Year 3
